... I really haven't gotten into mattresses yet on the blog, but I thought these hi-tech and allergy free ones from Somnium were quite interesting. From the TPEE springs (or Thermoplastic Polyether-Ester Elastomer) that contour to your body to the hypoallergenic covers and foam, my interest was definitely piqued. I can tell you from sitting on it, the mattress was quite comfortable, although I suppose that's not the most thorough test. I'd love to try one out for a few nights or hear from someone else who has....
